

Welcome to Organic Garden School Nutrition,

As your nutrition partner we create an inspiring and delicious nutrition journey for you, every day. Our team is happy to receive feedback and engage in conversations on the topic of healthy nutrition, sustainability and your individual needs.

Organic Garden Cafeteria Lunch

We offer your child a daily and freshly prepared main course, carefully planned and created for the individual needs of young people. The main course has two options. One contains animal products (meat or fish e.g.) and the other is preferably vegan or vegetarian.

We invest into a healthy planet for your children. We truly value, from planning to disposal, the respectful and sustainable preparation of the food and the reduction of its waste.

Our food concept does not include a permanent and classic salad buffet rather temporary and seasonal special salad dishes instead. Our salad dishes are included in the menu, as a sort of full-fledged main course enhanced by healthy toppings (e.g. cereals, animal or vegetable protein sources, berries, etc.).

- **4,75 € per person for kindergarten**
- **5,20 € per person for school**

The weekly menu is published on the BIS community intranet.

Our menus take cultural or confessional particularities as well as most common allergies into account. Please inform the nurse, the teachers and our team about special requirements of your child such as allergies or intolerances.

Where applicable, our team is happy to offer alternatives.
